Aimed squarely at 3 to 5-year-olds, but suitable for children of all ages, *Poppy Cat* marries stories of friendship with fantasy play and is sure to delight all those that watch.

PROVING POPULAR WITH VIEWERS ON BOTH SIDES OF THE ATLANTIC, *POPPY CAT* IS A TOP FIVE SHOW ON COMMISSIONING CHANNEL NICK JR. UK AS WELL AS BEING A TORRATING SHOW ON SPROUT IN THE US.

Combining the best of UK and US production talent with some outstanding voice acting, including Gavin and Stacey's Joanna Page, the series uses a combination of stunningly hand-crafted environments and exciting 2D/3D elements to mirror the pop up feel of the books.

Buried Treasure

When Alma loses her new necklace, Poppy takes them on a ship to find buried treasure with the help of her pirate treasure map. They are interrupted by a fierce pirate, Admiral Itchybeard (Egbert), who steers them into fog but a kindly whale helps them out.

Cheese Mountain

Poppy leads her friends on a hot air balloon ride to Cheese Mountain so Alma can practice her French words, but Mo reveals that he is afraid of heights along the way. Capt. Buzzy of the Bee Police (Egbert) attempts to thwart their ride, but they land on Cheese Mountain where Mo bravely goes after their runaway balloon.

Space Monsters

After Alma confides she had a dream in which Zuzu was a space monster, Poppy takes them to outer space in her rocket, where they encounter Cluckeroo, the Alien Chicken (Egbert), and where Owl gets sucked into space by Zuzu's accident. Zuzu takes control of the rocket during an asteroid shower, proving he is no space monster but their good friend.
